

Welcome to the 2022 - 2023 school year, Leawood Eagles!

I am incredibly honored to serve our community as principal of Leawood Middle. I believe that together our staff, students and families will continue the great work happening within and out of our walls through our partnerships, support and encouragement of each other. I also believe we have a great opportunity to continue to grow together as a community as we walk the middle school journey together in preparation for high school. The educational process at LMS is a collaborative effort among administration, staff, students, parents and community. Together I know we can and will do incredible work!

I received my Bachelor's Degree in Education from Kansas State University and my Master's in School Leadership from Baker University. Before joining the Blue Valley administrative team, I taught for eight years in the Bonner Springs/Edwardsville School District and then two years in Blue Valley. When I am away from the "nest" I enjoy spending quality time with my family: my husband, Curtis, and our three children, Hadley, Hudson and Henry. We love spending time outside, cheering on our local Kansas City teams and finding adventures to take together while our children are young!

Leawood Middle is one of a kind, a truly special place. Our staff make it a priority to provide your child(ren) an education that will meet each of their individual needs academically, socially and emotionally. I look forward to our work this year, creating a space where all students experience middle school days that will prepare them to become productive citizens in their communities, relationships and contributions now and in the future.
