

# Reading Makes You A Winner!

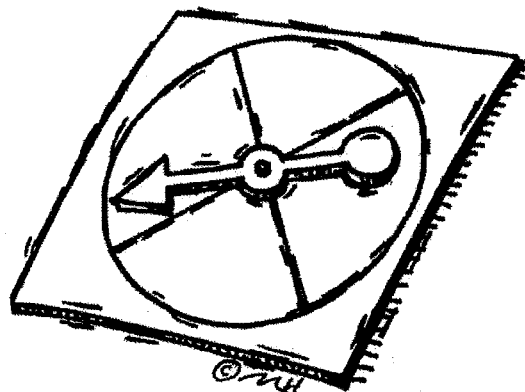

It is time for our December first grade reading incentive! This month the students will become **Reading Winners**. When your child reads a book or chapter, please record it onto a line on the game piece.

Each child will need to read at least 9 books or chapters to participate in our class party at the end of December. Please remember, your child may read to you, be read to aloud or read silently.

When your child has filled out the game piece, they need to return it to school to put on our reading incentive bulletin board. At the end of December, (your child's teacher will let you know the date) each child may bring a game to play with their classmate. It is best to send games that your child already knows how to play and can teach others. Remember that these games will be shared among the students.

Thank you for helping your child achieve the December Reading Incentive. We appreciate your participation and support!

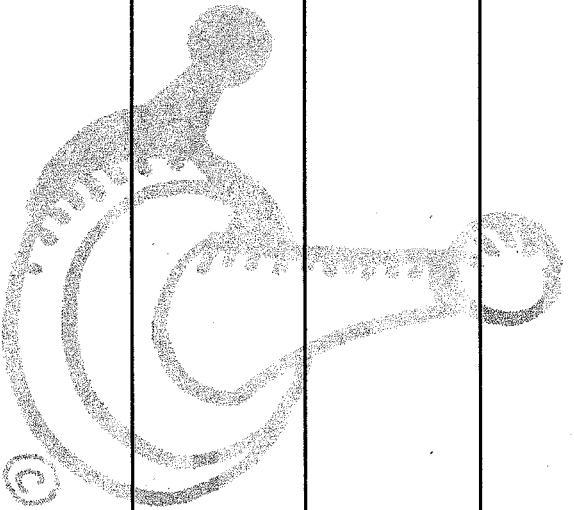

Sincerely,  
First Grade Teachers
