You’re done with diets, we promise. We believe in our members and our program so much that we promise you’ll lose 15% your body weight in 12 months.

Your Path to Success

Trust In Your Profile Plan
Your personal plan is the pathway to achieving your individual nutrition, activity and lifestyle goals. Stay positive and rely on Profile for the support and guidance you need.

Your Coach is Your Guide
Attend a minimum of 20 coaching appointments as you adjust to a healthier lifestyle. By meeting each week, you regularly discuss your goals and better understand the details of your plan.

Enjoy Nutritious, Delicious Food
Profile’s nutrition plans combine Profile Food and healthy grocery store foods to provide the nutrition you need and the results you want. Work with your coach to find your personal favorites.

Celebrate Your Success
Use Profile smart technology to help you and your coach track and visualize your success. Step on your Profile Smart Body Scale as often as you like, or as few as 2 times per month. As you progress, remember to celebrate all the non-scale victories, too.
