Consent to give Over-the-Counter Medications

School personnel must have parental consent in order to administer over-the-counter medications. Generic equivalents maintained in the health room may be used in place of the more expensive brand-name items. The School Nurse or delegated staff person will administer the approved medications as deemed necessary using his/her judgment. If parents send a student’s personnel supply of over-the-counter medications to be administered at school, they must be in the original container accompanied by the following signed note from the parent/guardian explaining the reason for the medication.

Name of student ___________________________________________ Grade _________

Medication must be in the original container.

Medication ________________________________________________

Dose to be given __________________________________________

Time to be given __________________________________________

Reason to be given _________________________________________

☐ I hereby give permission for my child to receive the above medication on this form, as deemed necessary by the school nurse or delegated staff person. As the parent, the signature below, relieves the school of any responsibility for the benefits or consequences of the medication when it is “parent prescribed” and acknowledges that the school bears no responsibility for ensuring the medication is administered. Homeopathic remedies or remedies not FDA approved will not be administered at school. (The above comply with K.A.R. 60-15-101 through 60-15-103)

I understand that any school employee who administers these medications according to proper dosages shall not be held liable for damages as a result of an adverse reaction to the medication administered.
