

Student Activities Committee

Student Activities Committee Minutes

September 14, 2023

The first meeting for the 2023-24 school year began with a brief review of results that have come from this committee, updates on our Mental Health training, and the status of athletic and activity projects related to the bond.

Deputy Superintendent Kyle Hayden then presented information regarding Blue Valley Enrollment and Transfer Policies, and House Bill 2557 – Open Enrollment. A large group question and answer session followed which helped to clarify how House Bill 2567 – Open Enrollment currently affects these Blue Valley policies.

The committee broke into smaller groups to allow students, parents, and staff to determine if there were any changes we would like to consider to the current enrollment and transfer policies. Each group then shared their thoughts with the committee.

High school, middle school and Blue Valley Recreation provided activity and athletic updates.
