Student Activities Committee Minutes

April 6, 2023

The Student Activities Committee (SAC) met on April 6, 2023. The items covered during our meeting included updates on the bond, eSports, and girls flag football and Mental Health First Aid training for coaches and sponsors next school year. We also recognized the seniors, then heard from a panel of high school coaches and sponsors.

Matt Ortman invited coaches and sponsors from each high school to share items that are going well for them this year. They mentioned student engagement, school spirit, opportunities available and the high level of achievement as those areas going well. The panel then shared the challenges they are facing: travel, time commitment, and financial support were consistent messages. The group then discussed the information shared by coaches and sponsors.

High school, middle school and Blue Valley Recreation provided activity and athletic updates.
