BATTLE DRAGONS

Battles Dragons is a cool book recommended by Ms. Nocita! It's a book about a world where humans tamed dragons and they have tournaments where they hide treasure and the dragons and their riders have to go and find it first, under any circumstances necessary to them. It's a cool book that I might even check out! So you better get to it first, **BATTLE DRAGON STYLE!**

Current clubs to join!:

Calling all Harry Potter fans! If you watched the movies and read the books and thought, "Wow! This is cool! I wonder if a certain Grant A. has a special club for this." Well, There is just the club for you and its club president is in fact Grant A. on Fridays during 7th grade lunch (for 7th graders only), There you can play games such as Blooket, Kahoot, Memory, and more! You don't have to watch any or all of the movies or read any of the books to join but you'll be a little confused if you didn't at least watch or read a book or movie or two.
