Important Points to Consider

This document is used to create your class schedule. We work hard to enroll each student in the classes that have been selected and give students their top elective choices. However, class size, staff availability, and time slots may impact the student's schedule.

Please review the following checklist prior to turning in your completed form.

- Select one math course
- Review the elective course list
- If your student has an IEP please consult your child's case manager before completing the enrollment form
- **Thoughtfully rank ALL the elective courses**

If you have any questions, please contact:

Kristin Emmitt, School Counselor
All 7th grade students
6th grade students, last names A - L

MOVING?

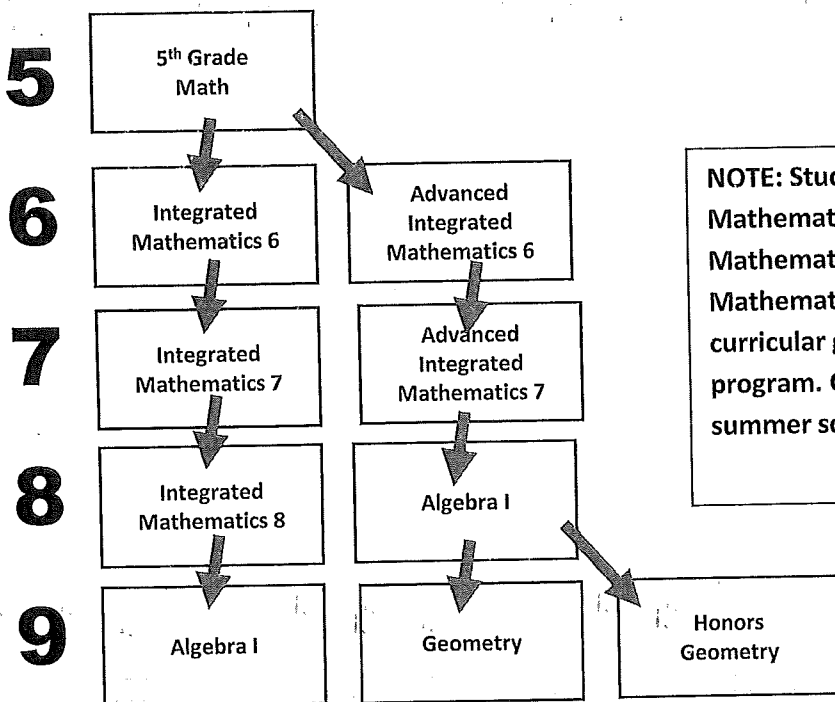

If you are planning to move, please contact
Melanie Rockers, Registrar.
marockers@bluevalleyk12.org or 913-239-5416

Dear Families:

As we begin the enrollment process, we want you to be aware of the math progression as a student transitions from elementary to middle to high school. The chart below details the math progression from 5th grade math into high school.

The requirement for graduation from a high school in the Blue Valley School District is 3 credits (6 semesters of passing grades) in math courses at the high school. Pre-Algebra does not count towards Board of Regents requirements.

For Board of Regents qualified admissions into a Regents' University, students graduating from an accredited Kansas High School must have an ACT score of 21 or higher or an SAT score of 980 or higher, or complete 4 credits of Math including Algebra 1, Geometry, Algebra 2, with one unit taken in the graduating year.

NOTE: Students can move from Integrated Mathematics 6 to Advanced Integrated Mathematics 7 or from Integrated Mathematics 7 to Algebra 1 by addressing curricular gaps through the summer program. Costs will be determined by summer school.
