Congratulations

On March 30, 2024, more than 400 area youth and their families and teachers gathered at Science City to celebrate the results of the 73rd annual Greater Kansas City Science & Engineering Fair.

Dhruv Mogenahalli worked all semester on his project studying the effect of exercise on memory. He conducted research, analyzed whether the results differed by age, and submitted a report. The evaluation and selection culminated in an interview with a panel of science professionals serving as judges. As a result of his hard work, Dhruv's project won 2nd Place in the senior division for behavioral and social science. Dhruv received a blue rosette ribbon, a trophy to display his Academic Award, and a prize of \$75.

Congratulations to this Husky for a job well done! #passionpurposepride
