# Science Olympiad Team

## Like Science...

Our LMS SO Team students prepare all year and compete, track-meet style, in 23 academic events in the science and engineering fields for medals.

This is for students who are especially high-interest in science and highly-motivated to compete with other schools.

This team meets year round and emphasizes: note taking, studying, building events, preparing, practicing and coaching.

Competitions are Saturdays in the Fall and Spring.

*Lab kits, lab coats, and goggles have to be purchased by participants. Let Coach H. know if that is an issue.*

# CLUB 121

Club 121 was launched at Leawood Middle School in 1999 with the purpose being to encourage students to grow and share in their faith, provide fellowship as a group of believers, and do our part to create a safe, caring environment at school.

We will begin the mornings with donuts and opening prayers. We rely on parent donations for the donuts, so there will be a sign up genius sent out prior to meeting dates, for parents to generously volunteer.

Most mornings, we will have speakers that are youth pastors, business leaders, members of local sports teams and former LMS students.
