Student Activities Committee Minutes

January 11, 2024

The meeting began with introductions to Blue Valley staff members who were invited to this meeting to share information.

Committee members were seated by table according to our six goals: Facilities, Participation and Opportunities, Financial Sustainability, Coach Retention and Development, Mental Health and Wellbeing, and Media Relations. Blue Valley staff members were seated with the committee members of the same interest to answer questions and to share their unique perspective. Each team is working toward a 1-2 year and 3-5 year outline for the Student Activities Committee.

Jake Slobodnik provided facility updates.

High school and middle school staff provided activity and athletic updates.
