

Student Activities Committee

Student Activities Committee Minutes

January 12, 2023

The primary purpose for the January 2023 Student Activities Committee (SAC) meeting was to continue the discussion of sportsmanship and develop an action plan to promote positive sportsmanship for spectators.

Blue Valley Recreation shared that they continue to see an increase in poor sportsmanship with respect to spectators at elementary and middle school-aged sporting events. This has contributed to an increase in the difficulty of finding individuals willing to officiate, coach, as well as retention for both.

Blue Valley also continues to see an escalation in poor spectator sportsmanship resulting in the struggle to recruit and maintain coaches and officials at the middle school and high school levels.

Small groups then brainstormed and shared ideas to help educate spectators and encourage positive support for sporting participants.

High school, middle school and Blue Valley Recreation provided activity and athletic updates.
