

Our 1st Grade Classroom News

The Week of September 10th - 14th

Email: Lweeks@bluevalleyk12.org

Website: <https://teachers.bluevalleyk12.org/Domain/559>

Important Info

- ▶ Reminder that we are having many conversations about books the students are reading at home each week. If you could help your child remember to read at least a couple times a week, that would be great!
- ▶ Homework will be due on Thursday this week since we do not have school on Friday.
- ▶ Feel free to join us for Amigo Day on Thursday from 9:50-11:30am! A festive lunch will be provided afterwards!

Tech of the Week

Website of the Week: Read and Listen is a great website that Scholastic has, that allows students to have a book read to them or read a book by themselves about different things. This is a great way to tie in Social Studies with their reading.

<http://teacher.scholastic.com/commclub/index.htm>

App of the Week: Popword is a FUN app for all! I actually use this app myself quite a bit. Students find words by pressing on letters that are connected to one another. For the students, I would suggest doing the practice rounds instead of playing an actual game against someone else. Maybe once they get enough practice, see if they would like to challenge themselves by playing someone else! This app is free!

Upcoming Events

Sept. 13 th	Amigo Day
Sept. 14 th	No School
Sept. 21 st	Zoo Field Trip (8:45am - 3:00pm)
Sept. 27 th	Fall School Pictures
Oct. 5 th	Walk-a-thon (9-11am)

Challenges of the Week

Math Challenge: We are about to finish Topic 2 in math that has many subtraction activities. Have your child come up with subtraction story problems (at least 2 of them) with something being taken away. Here is an example: Michelle had 7 rubber bands. Then she lost 4 of them! How many rubber bands does Michelle have now? *To make it more difficult, have them come up with comparison story problems instead. For example: I have 15 rubber bands. Ashley has 12 rubber bands. How many more rubber bands do I have than Ashley? (To solve, students take the highest amount minus the lower amount to find the difference).*

Reading Challenge: We have been identifying the main characters in books and deciding whether they would be a friend we would want to have or not. Have your child read a book, identify the main characters, and write about whether they would want to be friends with them in real life or not. Have them give reasons why they would or would not want to be friends with them.

Writing Challenge: Go to THIS (below) website and have your child spin to create a writing prompt! There are SUPER fun writing prompts here that will allow your child's imagination to run wild while they write! Have your child write a short story using the writing prompt that they got! This may be challenging for some so don't worry about doing this if it is too difficult.
